MOHAIMINUL TAZIM
Web Developer

PROFESSIONAL SUMMARY

Web developer with strong experience in building modern, responsive web applications. Skilled in **Next.js**, **React**, **TypeScript**, and other front-end technologies, with a focus on clean, efficient UIs using **SCSS** and SEO best practices. Proficient in back-end technologies such as **PHP**, **SQL**, **RDBMS**, **Node.js**, **AJAX**, and **RESTful APIs**. With a solid background in **cybersecurity**, I prioritize performance and security in every project.

WORK HISTORY

Full Stack Web Developer, 01/2018 to Current
Freelance - Remote
• Developed and maintained custom websites and web applications for a diverse range of clients.
• Specialized in both **front-end** and **back-end** development using technologies such as Next.js, React, JavaScript, TypeScript, PHP, SQL, RDBMS, JSON, AJAX and RESTful API.
• Implemented **secure** coding practices (input validation, authentication flows, etc) to protect against **web vulnerabilities** (XSS, CSRF, SQLi and others).
• Collaborated with clients to gather requirements and implement responsive, SEO-friendly and **secured** websites.
• Provided ongoing support and security patches to ensure optimal performance and resilience against threats.
• Managed multiple projects simultaneously, delivering high-quality, secure solutions within tight deadlines.
• Performed code reviews and **penetration testing** to identify and mitigate potential **security risks**.

Front End Web Developer, 11/2023 to 10/2024
Wolast Technologies - Dhaka (Remote)
• **Built Responsive Web Interfaces**: Developed and maintained user-facing features using **HTML, SCSS, JavaScript, React, and Next.js**, ensuring fast performance and clean, modern design across devices.
• **Focused on UI/UX and Accessibility**: Designed intuitive, accessible interfaces tailored to user needs, with an emphasis on **responsive layouts**, **SEO optimization**, and consistent design systems.
• **Collaborated with Clients and Teams**: Worked closely with clients and stakeholders to gather feedback, translate business goals into user-friendly designs, and iterate quickly based on user input.
• **Maintained and Improved Front-End Code**: Provided ongoing updates, performance tuning, and front-end refactoring to ensure a scalable, maintainable codebase aligned with modern web standards.
